(By Associated Press.)
SANTA ANA DE LIVRAMENTO, Brazil, Nov. 9.—Officials here believe the settlement of the strike, which has greatly interfered with the shipment of foodstuffs and other supplies to the entente allies, is only temporary and that the Germans are momenting a new walkout. STOCKS ARE HIT HARD BY RUSSIAN REVOLT

(By Associated Press.)
NEW YORK, Nov. 9.—Foreign developments loomed ominously upon the financial horizon yesterday, the latest Russian revolt forcing the active stock list lower by 3 to 8 points on an outpouring of approximately 1,800,000 shares.

Weakness spread to bonds and the foreign exchange markets, rates to Petrograd and Rome recording their greatest depreciation since the inception of the war. Incidentally the Liberty 3 1/2 per cent bonds which changed hands in large amounts fell to the new minimum of 99.36.

Wall street was slow to realize the importance of the news from Petrograd, which came near the forenoon trading. The market continued strong for a period, but once the extent of the coup d'etat became known stocks were thrown over in larger volume than at any time in the three months of almost uninterrupted liquidation. Declines in the general list were orderly at first, but the movement bordered upon demoralization as it gathered momentum in the afternoon. United States Steel made a steady descent from 95 7/8, its top price of the first hour, to 88 3/4 around 2 o'clock. A great many speculative accounts were closed out as steel broke through 90. The stock

COAL RELEASED BY NEW RULING

THE ADMINISTRATION PERMITS PROFIT ON HIGH PRICES PAID BEFORE U. S. REGULATION.

(By Associated Press.)
WASHINGTON, Nov. 9.—Thousands of tons of coal held by jobbers and wholesalers was made available for emergency distribution when the fuel administration decided to allow the dealers to take a small margin of profit on coal they had contracted for at high prices before the government prices were fixed.

Under previous orders jobbers have been permitted to sell only at a small margin above the government price at the mine regardless of the figures named in their contracts. Because in many instances this price was less than the coal cost them, the jobbers have held their coal.

NEW YORK, Nov. 9.—Announcement of a national convention early in 1918 at which plans will be made for placing candidates in the field for the congressional elections later in the year was made in this city by the National party, which was formed in Chicago in October through a coalition of prominent Progressives, Prohibitionists, single taxers, those who withdrew from the Socialist party and independents. The time and place of the convention are yet to be chosen.

John Spargo of Vermont, director of propaganda and education of the party, said an effective organization is being built up and that the party's campaign will be made on "complete and unswerving loyalty to the allies' cause."

Other planks in the National party platform, Mr. Spargo said, will be prohibition for the period of the war, equal suffrage by federal amendment, maximum free speeches consistent with the national safety and abolition of profiteering.

HOUSE SAYS NO BRITISH PACT

SHIPPING TO BE MAIN SUBJECT OF THE INTERALLIED CONFERENCE IN LONDON.

(By Associated Press.)
WASHINGTON, Nov. 9.—Aside from the subject of actual military operations, shipping will be the most important question taken up by the allied war conference. Officials said today an international policy respecting the disposition of tonnage must be worked out. The United States shipping board has announced that it will turn out by early spring a million tons of ships. This will fall far short of the demand.

The American view of the situation will be set forth by Bainbridge Colby, member of the commission representing the shipping board. The shipping board also sent with the commission Charles Day, a Philadelphia marine engineer, who will study English shipbuilding methods, particularly the construction of fabricated steel ships.

Colonel House, head of the United States delegation, replied negatively to the question of newspaper men whether the commission's presence meant that the United States would join the Pact of London, binding the allies to wage war or make peace together.

A few minutes later several scores of soldiers of the same battalion started in pursuit, and late last night nothing further had been heard from either party, except that about thirty-five stragglers from the Ninth had been captured by military police. The soldiers forcibly commandeered several autos and last reports were that they were speeding toward Tuskegee on the road which the white men were said to have traveled with their prisoner.
